

Root Cause Analysis for Incident Investigation

1-Day Basic	Oct 3, 2024	<i>7 contact hours / 0.7 CEUs</i>
3-Day Advanced	Oct 16-18, 2024 & Feb 19-21, 2025 May 13-15, 2025 & Nov 3-5, 2025	<i>21 contact hours / 2.1 CEUs</i>

Root cause analysis identifies approaches, techniques, and tools to uncover the systematic causes of an incident. The **1-day basic course** provides an understanding of the procedure for incident investigation, using root cause analysis, and appropriate preventive measures or corrective actions. The **3-day advanced course** explores in-depth approaches to incident investigation, including detailed case scenarios and interactive exercises. In both courses, participants will obtain data collection and analysis skills that will equip them to conduct incident investigations and implement appropriate corrective actions. Health and safety professionals, supervisors, and workers with an interest in safety and accident investigation should attend.

MEET THE INSTRUCTOR

Rocco Meraglia, B.Ad, Dip. OHS, CRSP, ASP, Cashman Global (HSE & Security) Management LLC
