

# Occupational Safety & Health Certificate Programs

Benefiting professionals at all levels of experience

**Experienced health and safety professionals and emerging leaders alike will benefit from training in OSHA standards, industry-specific electives, and practical health and safety solutions presented by recognized industry leaders.**

**The University of Washington (UW) is proud to support career development training for veterans residing in Washington State.** Veterans who are eligible for VA education benefits can use their benefits while pursuing several different certificate programs from the UW Department of Environmental and Occupational Health Sciences (UW DEOHS) Continuing Education Programs.

Apply your VA benefits to gain the skills and knowledge you need to kick-start or advance your career in occupational health and safety! Certificate Programs are available for professionals at all levels of experience.

## **ABOUT OUR CERTIFICATE PROGRAMS** [osha.washington.edu/certificate-programs](https://osha.washington.edu/certificate-programs)

The Pacific Northwest OSHA Education Center offers both advanced and entry level certificate programs in maritime, construction, emergency response, and general industry. Program graduates will gain knowledge of the fundamentals of occupational safety and health, cost-effective safety and health solutions, and best practices for implementing safety programs - an invaluable skill set in today's workplaces. Graduates in advanced programs will also be authorized to instruct OSHA outreach training programs upon completion of their certificate.

In addition to OSHA Certificates, the UW DEOHS Continuing Education Program offers the [Green Chemistry & Chemical Stewardship Online Certificate](#), a 3-course program for designing safer chemicals and industrial processes.

## **ENROLLMENT REQUESTS**

Please contact the UW Veterans Education Benefits Office in order to set up your benefits before you enroll in a certificate program or register for courses.
