

# **OSHA Course #7500**

## **Introduction to Safety and Health Management**

### **Course Description**

This course covers the effective implementation of a company's safety and health management system. The course addresses the seven (7) core elements of an effective safety and health management system and those central issues that are critical to each element's proper management.

This course is an interactive training session focusing on class discussion and workshops. Upon course completion, students will have the ability to evaluate, develop, and implement an effective safety and health management system for their company.

**Minimum student contact hours: 5.5**

**Prerequisites: None**

### **Course Goal**

To increase participant's knowledge and provide them with the basic concepts of implementing a company or organizations safety and health management system.

### **Terminal Learning Objectives**

#### **TLO 1:**

**Explain the benefits of implementing a safety and health management system.**

#### **TLO 2:**
